

Poland - Kraków

Then Ali visited Kraków, an old city in the south of Poland, which was the former capital of Poland.

He went straight to the oldest part of the city in order to see famous historical places.

He saw Wawel Castle. It's a place where many Polish kings lived. Next to the castle there is a huge cathedral where famous Polish people were buried. He saw tombs of Polish kings, poets, politicians, etc.

Then he walked to the Old Town where he saw Kościół Mariacki, an old church with two towers. This church is famous for an altar which was made in XV century by a famous German sculptor, Wit Stwosz.

Finally, he took a walk along the narrow streets of the Old Town. He admired the historical buildings. He loved the architecture, especially the beautiful doors, sculptures and windows which made his visit an unforgettable experience.

A MUSEUM CITY OF EDİRNE

Ali's uncle and his cousins Almira and Kivilcim live in Edirne. So, Ali called them and he told that he would come to Edirne as a part of his journey, and asked them to go sightseeing. Almira and Kivilcim were so happy to hear that because they were too bored at that distant learning period. It would be good and fun activity for them.

IKRAM KALKAN /Mimar Sinan Secondary School

The Castle of Silves is located at the highest point on the hill on which the town of Silves, in the Algarve, stands. This monumental red castle was built by the Arabs in the 11th century and is currently one of the best preserved castles in the entire Algarve region. Its interior offers fantastic panoramic views over the village.

Fortaleza de Santa Catarina. The beautiful Fortaleza de Santa Catarina, built on Praia da Rocha and the mouth of the Arade River, was partially destroyed during the 1755 earthquake, but is now restored and open to the public. The fortress maintained its military purposes until the 20th century, when it was occupied by the Civil Guard and the Maritime Police, but today it serves exclusively as a tourist attraction.

I couldn't leave the Algarve without soaking up the sun and taking a dip in the magnificent Algarve beaches. Wonderful sun and warm water ...
